Civil Warfare

So come on lover
Put your love on the line
And leave it helpless
And leave it behind

You were the last one standing
When I went on home
With my story unseen
And the glory your own

How is this war when we both fall
Down and down again?
Face to face, lay it all out
And walk away, walk away

So come on lover
Please me right on the line
And leave it helpless
And walk away, walk away
And walk away, walk away

[Repeat Chorus]

[Outro]
And walk away, walk away
And walk away, walk away
And walk away, walk away
